How to Sell and Play MATCH 6 lotto

Cost: $2.00 per game (3 lines). **Drawings:** Monday and Thursday.

Players choose six numbers from 1 to 49. A MATCH 6 game allows the player to choose the first six number line, the next two lines are quick picks for a total of 18 numbers. Players have the opportunity to win four ways matching the numbers drawn by the Pennsylvania Lottery to each line or by combining lines (Refer to the "Multiple Ways to Win" section located on the back of this document). Players may use a playslip to choose their own numbers, have the computer select them through the "Quick Pick" method or a combination of the two. All prizes are paid out in cash, including the jackpot. Advance play is available for up to 26 draws. The MATCH 6 jackpot prize level is pari-mutuel, so the jackpot prize pool is divided equally by the winning jackpot prize tickets. If the jackpot prize is not won in a MATCH 6 drawing, the jackpot prize rolls over to the next drawing's jackpot prize.
