How to Play the Mega Millions® Game

Cost: \$2 per ticket **Drawings:** Tuesday and Friday at 11:00 PM **Sales Cutoff:** 9:59 PM*

Mega Millions® players choose five numbers from 1 to 70 from the first set of numbers and choose one number (the Mega Ball®) from 1 to 25 from the second set of numbers. Players have the opportunity to win nine different prize levels by matching the Mega Ball number and/or more numbers from the six numbers drawn by the Mega Millions Lottery (refer to the “Mega Millions Prize Levels” section). Players may use a playslip to choose their own numbers, have the computer randomly select numbers through the quick-pick method, or a combination of the two. Advance play is available up to 26 consecutive draws. Prior to purchasing a Mega Millions ticket, players may select the Megaplier® option, which can increase their winning prize two to five times (Jackpot Prize not eligible). The Megaplier costs an additional \$1.00 per Mega Millions play. Prizes up to and including \$2,500 can be validated and paid at any online retailer terminal. Players with winning tickets over \$600 must file a claim form. For prizes over \$2,500, a standard claim form must be completed and submitted to Lottery for payment. Winning tickets may be redeemed up to one year following the drawing date for which they were purchased.

*The top prize is a pari-mutuel jackpot (the prize pool is divided by the number of winners).

Methods of Selling Mega Millions (WAVE Terminal)

Note: To sell Mega Millions advanced draw, the player must start with the next available draw plus the additional draws they wish to play. The current draw must be part of the selection and advanced draw dates must follow in sequence. The MULTI SELECT feature has been removed from Mega Millions selling options to comply with multi-state rules for this game.

MANUAL METHOD:

Touch the **[GAMES]** tab to advance to page 2.
Touch the **[Mega Millions]** icon.
Touch the **[YES]** or **[NO]** icon for the Megaplier.

*Note: If you need to change numbers you have selected, touch the number again to de-select or touch **[CLEAR]** to remove those numbers and start over.*

To select the play options:

- Touch the **NUMBER OF PLAYS** desired or touch **[Other]** for a pop-up keypad and enter amount up to 100.
- Touch the number of **DRAWS** desired or touch **[Other]** for a pop-up keypad and enter amount up to 26.
- Touch **[LAST]** to bring up the previous transaction, if desired.
- Touch **[SEND]**. The terminal prints the ticket(s).

PLAYSLIP METHOD:

Step 1: Insert the completed playslip face down in the middle of the document scanner.

Step 2: The ticket will automatically print if the playslip is filled out correctly. If the playslip is marked incorrectly, the screen displays an error message.

Note: The terminal will default to the next available drawing. Advance drawings are only available starting with the next available drawing through 26 draws. Skipping drawings is not available.

Selling the Megaplier Option

The Megaplier option adds \$1.00 to the cost of each play. Example: Mega Millions ticket (\$2.00) + Megaplier (\$1.00) = total price of the ticket will be \$3.00.

Players must mark the Megaplier box on their playslip to select this option for ALL plays on their playslip.

Note: The Megaplier number is drawn just before the televised Mega Millions drawing. Draw staff will select a single number from a range of 2-5 through a randomizer. If “5” is selected, the player will win 5 times the Mega Millions regular payout (Jackpot excluded).

Mega Millions tickets cannot be canceled!

Sample WAVE Mega Millions Ticket

- Name of game
- Cost of ticket – Number of Draws
- Date of drawing
- Megaplier Option
- 2D Barcode
- Player's numbers
