

## Tracy – iLottery Delaware County

PA Lottery online player Tracy of Delaware County said she was at work when she was notified that she was one of five winners of the Pennsylvania Lottery's *Dick Clark's New Year's Rockin' Eve with Ryan Seacrest* [iLottery Prize Draw](#).

"Honestly, I did not believe it," said Tracy. "I am very excited and grateful to be going on this trip! I can't wait!"

Tracy first told her daughter about the VIP trip, which will give her a chance to win \$1 million on New Year's Eve in Times Square.

"My daughter kept telling me, 'You really won!' My husband did not believe that I really won at first either," said Tracy. "I cannot wait to go to New York and have a great time! I am so happy I won! I am excited to go to the parties!"

In addition to playing online, Tracy said she also likes to play the PA Lottery Scratch-Offs. Tracy said she previously won \$1,000 three times playing Scratch-Offs. "It is a lot of fun," she said.

Twenty other PA Lottery players who entered a [Second-Chance drawing](#) will also be joining Tracy in New York City. In total, 25 winners from Pennsylvania will be in the Big Apple for a chance to experience VIP parties and win \$1 million.

The First Powerball® Millionaire of the Year™ drawing will occur on January 1, 2020, just after midnight, during ABC's live broadcast of *Dick Clark's New Year's Rockin' Eve with Ryan Seacrest*.

Twenty-five lotteries are participating in this promotion. More than 300 winners from those jurisdictions will join Tracy in New York City in late December to enjoy a once-in-a-lifetime trip experience, including a theater performance and a holiday cruise on the Hudson River with dinner and entertainment. The experience also includes round-trip airfare, hotel accommodations, and an exclusive New Year's Eve gala, featuring live entertainment and prime location for the Times Square ball drop. One lucky trip winner will be randomly drawn to win \$1 million and become the First Powerball® Millionaire of the Year™.

Congratulations, Tracy!
