How to Play Powerball®

Effective: January 15, 2012

Cost: \$2.00 per game.

Drawings: Wednesday and Saturday at 10:59 p.m.

Players choose five numbers from 1 to 59 from the first set of numbers, and choose one number (the Powerball number) from 1 to 35 from a second set of numbers. Players may choose their own numbers, have the computer select them via the “Quick Pick” method or a combination of the two. Players have the opportunity to win nine different prize levels by matching their numbers to those drawn by MUSL (Multi-State Lottery Association). The jackpot is paid out as an annuity, in 30 equal installments over 29 years. Jackpot winners may elect a one-time cash payment within 60 days of winning. The top Powerball prize level is pari-mutuel so the total jackpot prize pool available is equally divided among winning tickets. If the jackpot is not won in a given draw, the jackpot prize pool rolls over to the next drawing’s jackpot. Advance play is available for up to 26 draws.
