Cash4Life® Daily Drawings

Dear valued retailer,

Effective **Monday, July 1, 2019**, **Cash4Life®** will be drawn **seven nights a week!** The last bi-weekly drawing (Monday and Thursday) will take place on Thursday, June 27, 2019. The base cost per ticket will remain at \$2 and the sales cut-off time will remain at 8:45 p.m. with the drawing at 9:00 p.m.

The existing Cash4Life® game requires a drawing step-down process prior to implementation of the new drawing structure. After the drawing on Monday, May 27, 2019, we will begin the step-down process. Players will only be able to purchase nine draws in advance. The total available advance draws will decrease from that point by one drawing (i.e., the next draw they will only be able to purchase eight draws in advance). This step-down process will continue until the last bi-weekly draw on Thursday, June 27 has occurred. The previous version of Cash4Life® allowed for five weeks of multi-draw or advance purchase. The new structure will allow for a total of 10 days of advanced draws.

If there are questions about this process at any time, please call your District Sales Representative. We appreciate your time, commitment and continued partnership.

Best in selling!
