Introduction to End Zone Cash: Understanding The Basics

End Zone Cash is part of the Xpress Sports lineup of virtual sporting events. Every four minutes, a selection of full game highlights will be shown between 16 football teams as the scores change with every touchdown and field goal. Each of the eight matchups will result in a winning team for that matchup.

- Eight matchups (among 16 football teams) will be shown per drawing.
- Each matchup will have a winning team.
- Players select the number of winning teams to parlay, from a minimum of three teams to a maximum of eight teams.
- Players then select teams to win their matchups.

<u>Note</u>: A parlay, in End Zone Cash, means one purchase is made on three or more outcomes that are tied together for the chance at a prize.

Example: If a player picks **five** teams to parlay, **all five teams** selected must win their matchup in order to win a prize.

Each drawing consists of 16 teams; all have different chances of winning. The lowest numbered team has the best chance of winning, while the highest numbered team has the least chance of winning.

Team names, such as Pittsburgh, are randomly assigned a number and that number's corresponding chances of winning for each drawing.

How to Play and Prizes

- 1. Select the amount to play for each drawing.
 - 2. Select the number of consecutive drawings.
 - 3. Select the number of winning teams to parlay.
- 4. Select the teams to win their matchup.

Must match selected number of winning teams to parlay.

5. Select YES to add the TOUCHDOWN MULTIPLIER.

Optional feature that triples the cost of a play and multiplies any prize won by 2X, 3X, 4X, 5X or 10X.

How it Works: The number of touchdowns scored from all matchups will be combined; the more touchdowns across all matchups, the higher the quaranteed multiplier.

Selling End Zone Cash on the WAVE and WAVE 8 Terminals

Insert a completed End Zone Cash playslip into the document scanner or manually enter game options for a player using the steps below.

- 1. Select the [End Zone Cash] icon.
- 2. Select each desired play option:
 - a. Number of teams to parlay (Min: 3, Max: 8)
 - b. Play amount (Min: \$1, Max: \$20)
 - c. Number of draws (Min: 1, Max: 20)
 - d. Touchdown Multiplier (Yes or No)
- 3. Select the player's desired winning teams: Make selections from the **Team Matchups** Section on the right of the screen. The number of teams selected must match the selected number of teams to parlay. When a team is selected in a matchup, the opposing team's icon will be disabled.
- Once all selections have been entered, select the [BUY NOW] icon to print the ticket.

WAVE 8 Terminal, End Zone Cash Main Sell Screen

Note: You may select **[ADD TO CART]** to add the ticket to the Shopping Cart. For additional information about the Shopping Cart feature, please refer to the WAVE 8 Quick Reference Guide.

Note: End Zone Cash tickets cannot be produced using the REPLAY feature and tickets cannot be cancelled once printed.
