

SCRATCH TO CASH

The PlayCentral Terminal (PCT) has been upgraded to allow players to redeem instant Lottery tickets (2-D barcode only) through the scanner. Place the instant ticket (face up with scratch coating removed exposing the 2-D barcode) under the scanner located on the front of the PCT.

Once the terminal processes the winning ticket, a message will be displayed on the screen:

Congratulations

Winner \$XX.XX (PCT will only redeem tickets of \$600 or less.)

Please touch [YES] to credit your balance. Please touch [NO] to retain your original ticket and redeem at a later date.

If a player has won a free instant ticket prize, they will receive the same instant ticket provided the instant game is available for sale inside the PCT. If not available, the value of the free instant ticket will be credited to the players balance.

If the player touches YES, the value of the prize will be credited to the player's balance. The player may purchase additional tickets or press the **[Voucher]** icon to receive a voucher. Vouchers may be paid out by any WAVE terminal.
